

Feel The Love

(Jennifer Paige, Ivo Moring)

Feel the beat, move your feet to the music
Feel the love, gotta love, gotta feel it

Tonight forget about your troubles
Feelin' so right, let the music take you til you're so high
When nothing seems to make sense, make sense

One more hit, take another trip into the abyss
Wash your pain away with every sip
While all your dreams get wasted, wasted

CHORUS

Feel the love, gotta love, gotta feel it
People round the world
Gotta believe, b'lieve in something, something
Hear the beat, stomp your feet to the music
Sounds so sweet
All u gotta do, u gotta listen, listen

Never too late, pick up all the pieces, so what's the wait
There's no use in planning the great escape
There's so much to live for, don't you want more

So take time, everywhere you turn they're blowin' your mind
Sit back and relax, just hit the rewind
It's the right time to start over, just start over

CHORUS

Feel the love, gotta love, gotta feel it
People round the world
Gotta believe, b'lieve in something, something
Hear the beat, stomp your feet to the music
Sounds so sweet
All u gotta do, u gotta listen, listen
Feel the love, gotta love, gotta feel it
All around the world
Gotta believe, b'lieve in something, something
Hear the beat, stomp your feet to the music
Open up your mind
All u gotta do, u gotta listen, listen

Best Kept Secret

(Jennifer Paige, Joakim Björklund, Hannah Robinson)

The smell of alcohol, breathe it down my throat
So I choke cause it tastes so sweet, yeah
Bitten nails never fail to please me
They hunt me down, then they search me out

No one ever has to know
Forget my name before you go

CHORUS

So be mine
Oh be my
You're my best kept secret
Oh be my
So be mine
You're my best kept secret

The smoke of cigarettes fills the room right up
Hold me down by the hands you bound up
You grip the hourglass, I lick the tattoo
You're a fantasy but that's good for me

No one ever has to know
Forget my name before you go

CHORUS

So be mine
Oh be my
You're my best kept secret
Oh be my
So be mine
You're my best kept secret

The smoke of cigarette it fills the room right up
Hold me down by the hands you bound up

CHORUS

The Calling

(Jennifer Paige, Chris Landon)

There's nothing to say
There's nowhere to go now
I guess everything changes
Safe in the dark
Heart in a black out
But nothing erases
What's locked deep inside
And with the passing of time
I try to move on, you won't let me go

CHORUS

I hear you calling
Words I long to hear
So temporary
Take me away from the ordinary
I feel you haunting
Feel you in the air
Why do we dare
When there's just so many ways to say farewell

Another day
I go through the motions
Everything's distant
Memories fade
But this strange devotion
Breaks my resistance
So much has been broken
And words left unspoken
Lost in the silence
Speak to my soul

CHORUS

I hear you calling
Words I long to hear
So temporary
Take me away from the ordinary
I feel you haunting
Feel you in the air
Why do we dare
When there's just so many ways to say farewell

Here In The Sun

(Jennifer Paige, Doug Beiden)

If I had any luck in the world you and I would be together
Cuz you roll in and shower me like rain in the middle of the summer
You're like a cool breeze blowing
Wanna feel the wind rushing through my hair
Cool breeze, cleanse me
All I know is I feel you everywhere

CHORUS

Every day's a little better as long as I'm here in the sunshine
Every day's a little better as long as I'm here in the sunshine
Lalala- lalalala

Maybe I'm just dreaming here to think you would surrender
Cuz you stroll in like a sunny day in the middle of the winter
Just like a cool breeze knowing
That you could fly away and leave without a care
Cool breeze, floating
All I know is I still feel you in the air

CHORUS

Every day's a little better as long as I'm here in the sunshine
Every day's a little better as long as I'm here in the sunshine
Lalalala- lalalala

Don't go away, please stay

CHORUS

Every day's a little better as long as I'm here in the sunshine
Every day's a little better as long as I'm here in the sunshine
Lalalala- lalalala

Sugarcoated

(Jennifer Paige, Doug Beiden)

Go on, go on, go on
Go on and tell like it is
Don't want it sugarcoated
Oh, your kind of sweet leaves a bad taste in my mouth

So, cmon, cmon, cmon
You never say what's on your mind
It's like you're undercover
You know how to get your way without making a sound

They're eating out of the palm of your hands
But they don't know it's all a show

CHORUS

Sugar sweet like honey baby
Say what they want to hear
Cuz everybody loves a candied baby
Making it loud and clear
What's on the tip of your tongue
Why are you playing dumb
Go on just spit it out

Go on, go on, go on
Take another step ahead
And climb on up the ladder
You'd do anything to get yourself to the top

Yeah, they're eating out of the palm of your hands
That's when you know it's time to go

CHORUS

Never make a stand, take everything you can
Never make a stand, take everything you can

CHORUS

Broken Things

(Julie Miller)

You can have my heart but it isn't new
It's been used and broken and only comes in blue
It's been down a long road and it got dirty on the way
If I give it to you will you make it clean wash the pain away

CHORUS

You can have my heart
If you don't mind broken things
You can have my heart
If you don't mind these tears
I heard that you make all things new
So I give these pieces all to you
If you want it, you can have my heart

So beyond repair, nothing I could do
I tried to fix it myself but it was only worse when i got through
But then you walked right into my darkness and you speak words so sweet
You hold me like a child til my frozen tears fall at your feet

CHORUS

You can have my heart
If you don't mind broken things
You can have my heart
If you don't mind these tears
I heard that you make all things new
So I give these pieces all to you
If you want it, you can have my heart

Underestimated

(Jennifer Paige, Peter Ries)

CHORUS

You've underestimated, you've underestimated
You've underestimated me again
You've underestimated, you've underestimated
You've underestimated me again

Hot shit, you thought I'd quite, and I'd just sit back in the corner
Mouth shut, had enough, held my tongue, can't wait no longer
I'll be seeing you one way of another
And when I do, gonna say that we should together never

Wink and a smile, it's been a while
With every day I'm for the better
I song my song, I still remember
I'll be seeing you one way or another

CHORUS

You've underestimated, you've underestimated
You've underestimated me again
You've underestimated, you've underestimated
You've underestimated me again

Where have you been, you know me when
You say you know, you knew, whatever
Give in, better call a friend
Before you're all alone and weathered

I'll be seeing you, yeah
One way or another
I know you know the truth
Even if it's under the covers

CHORUS

I'm gonna break out, let it all go
So turn around, I'll say it slow, baby
Say it loud, what you already know
I'm not about to let you take control

CHORUS

Bloom

(Jennifer Paige, Doug Beiden)

Days and nights and days
Been caught in a rhythm
Can't keep running
Never look, never looks back
To the promises broken
But can't help wondering
On a day like today
When there's nothing new
What's she gonna do
Another day like today
With the same old view

CHORUS

Stepped out to life in full bloom
Got lost under the sun
Blinded, she still moves on
Coming undone
When she dreams in color
It's only black and blue
She's like a fading flower
And life's in full bloom

Watching the world go around
She picks up the pieces
Goes through the motions
Swears that she'll never go back
But she can't move forward
Stuck in the middle
On a day like today
When there's nothing left to lose
Oh, what's the use
Another like today
Feels like there's nothing's left
Nothing to lose

CHORUS

She never dreamed that she could fly away, no
She never dreams that she could fly away, hey
But she still moves on, coming undone

When she dreams in color
It's black and blue
She's like a fading flower
And life's in full bloom

I Do

(Jennifer Paige, Steve Booker)

Overloaded with questions unanswered
What are we doing here
In all this commotion
With guarded emotions
We're afraid to feel
In this world gone crazy
I'm keeping you close to me
So love won't leave me here

CHORUS

Cuz I'm prone to overanalyze
My heart gets stuck in overdrive
While I'm left standing by
And I do love you
I like to go with the flow
Still I don't know which way I'm going
But it's all there in the skies
How I do love you
I do love you

I'm overthinking, every motion
Got my feet off the ground
And I'll be headin'
In your direction
So when it all comes down
To a world gone hazy
You'll be leading me safely
Love won't leave me here

CHORUS

Cuz I'm prone to overanalyze
My heart gets stuck in overdrive
While I'm left standing by
And I do love you
I like to go with the flow
Still I don't know which way I'm going
But it's all there in the skies
How I do love you
I do, do love you, I do love you

Don't stop you know that I'm needing you now
Don't stop til I got my feet off the ground
Can't stop this feeling, can't slow it down

Downpour

(Jennifer Paige, Michael Jay, Johnny Pedersen)

Every day it gets deeper, feels like I'm walking on the ocean floor
Another day I'm flying, that just leaves me wanting more
Looking for a place to land
I've been reaching for your hand
What's it gonna take to get you to notice me
Why can't you see

CHORUS

I fall hoping that someone will catch me
I hold on wanting only you to save me
How long are you gonna keep me waiting, all alone
I'm lost in the downpour

Where do we go from here, feels like I'm drowning, I'm going under
Is there a break in the clouds or could I be dreaming,
It makes me wonder if I'll ever be
The one that you need
What's it gonna take to get you to see me

CHORUS

I fall hoping that someone will catch me
I hold on wanting only you to save me
How long are you gonna keep me waiting, all alone
I'm lost in the downpour

If only, if only
If you could wash away the rain
And show me, and show me
Show me how to feel again
I'll never, I'll never
No, I'll never be the same

CHORUS

I fall hoping that someone will catch me
I hold on wanting only you to save me
How long are you gonna keep me waiting, all alone
I'm lost in the downpour

Wasted

(Chesney Hawkes, Jens Thoresen)

We used to be happy
We used to make sense
We had everybody
Believing again
We used to stick together
Everywhere we went
Always in to each other
So over confident

I don't know if you've ever fallen apart
Or ever had a broken heart

CHORUS

I don't wanna be there I don't wanna be free
It's wasted, it's wasted on me
I don't wanna be scared, why can't you agree
It's wasted, it's wasted on me

We used to be something
Everybody saw that
Said it was forever
On the right track
I don't know how it changed
But I want it back
Cuz I never saw this coming
Never thought you could do that

I don't know if you've ever fallen apart
Or ever really had a heart

CHORUS

I don't know it all
I want it all
Just wanna be
Back to you and me
Don't wanna go, but here I go.

Be Free

(Jennifer Paige, Ivo Moring, Mirko Von Schlieffen)

Have you ever felt something that you've got to get out, let it out
Ever wanna know someone from the inside out, what they're about
You never know what life will bring
Try and you just might be surprised

CHORUS

Be free
Love doesn't wait forever
Don't ever hesitate
Be free
Life won't wait forever
Don't let it be late
Be free

Have you ever needed to say something you just couldn't say the right way
Ever bit your tongue, put it off, gonna have to wait one more day
Well, you never know how time will fly by
So, you just might live your own life
So, go on

CHORUS

Be free
Love doesn't wait forever
Take what you wanna take
Be free
Life won't wait forever
Don't let it be late

Take some time to live for the moment
There's no time to waste not a second
Live for today
Take some time to live for the moment
There's no time to waste not a second
Live for today

If you're gonna lose control
Just let it all go
If you keep moving on
Nothing can hold you down
So, be free

Mercy

(Jennifer Paige, Kevin Kadish, Torsten Stenzel)

I got nothing but love for you honey
It don't matter if you ain't got money
I got chills running down from my head to my feet
But my temperature's rising I can feel the heat
Cupid ain't got nothing on you, boy

You keep me up until early morning
Lord, I swear, you outta come with a warning
I feel so high I get weak in the knees
I ain't gonna lie, I love the way that you tease
You got me beggin', beggin' mercy

CHORUS

I quit, I give in
Cuz there's no way to win at this game
If this love is a sin
Then I'll be going down in flames
Never gonna be the same
Oh, mercy

I've been feelin' hot and bothered
You got a way that's like no other
You found my weakness and you tightened your grip
And, I've been held a captive to that night ever since
So, lock me up and throw away the key, boy

If your lovin' is a crime, I surrender
Go and take me baby as your prisoner
I'm where I wanna be, crying mercy

CHORUS

I quit, I give in
Cuz there's no way to win at this game
If this love is a sin
Then I'll be going down in flames
Never gonna be the same
Oh, mercy
