

These days

(Philip Thornalley & Campsie)

Some days I couldn't get up
I couldn't get down
Bored of everything
Somehow a little black cloud
Rained over me
Someone was making me mad
Good turned bad and I lose everything
To get you back
Just to get you back

But
These days the world's alright
The sun shines bright
I'm kicking off the bad dreams
These days I don't think twice
I walk on light
I'm positively somewhere
These days go on long after you've gone
These days go on long after you've gone
These days go on and on and on and on and on

Out of the fire into the swimming pool
Sometimes I drown my tears
Same old fears come back
Someone was making me ill
I bet you're still
A two, three, four letter word
Guess you heard
Pretty little birds fly home

But
These days the sun kicks in
The good guys win
I'm legal in the back seat
These days I'm safe and sound
Not dragged down
You want to know the reason
These days go on long after you've gone
These days go on long after you've gone
These days go on and on and on and on and on

Brigde:
Thank you for not being here
I feel better when you're not sleeping in my head
Tossing and turning
Messing up the sheets
The love we made was incomplete
Like the shoes on your feet
The same stuff I've heard it before
That philosophy starting to bore me
Now you won't have to smile and ignore me

These days the karma's right
The sun shines bright
I'm kicking out the bad dreams
These days I don't think twice
I walk on light
I'm positively somewhere
These days go on [and on and on and on and on]
These days go on [and on and on and on and on]
These days go on [and on and on and on and on]
Oh yeah, remember these days,
on and on and on and on and on...
Oh yeah, remember these days,
on and on and on and on and on...
Oh yeah, remember these days,
on and on and on and on and on...
Remember these days go on,
remember these days go on, oh yeah, oh yeah...

Here with me

(Matt Bronleewe, Arbuckle Lee, Beatty & Stanfield)

In my head
I have dreams
I have visions of many things
Questions longings in my mind

Pictures fill my head
I feel so trapped instead
But trapped doesn't seem so bad
Cause you are here

CHORUS

It doesn't mean anything
Without you here with me
And I can try to justify
But I still need you here with me

In my heart I had hope
Built on dreams I'll never know
Answers to love left behind
Visions filled my head

I felt so trapped instead
But trapped didn't seem so bad
Cause you were near

CHORUS

It doesn't mean anything
Without you here with me
And I can try to justify
But I still need you here with me

I can't do anything without you
You give me strength to do anything
And I can't be everything I try to
You saved me from the everything I couldn't be

CHORUS

It doesn't mean anything
Without you here with me
And I can try to justify
But I still need you here with me

Need you here with me
I need you here with me

Stranded

(Matt Brownleewe & Arbuckle Lee)

You know it only breaks my heart
To see you standing in the dark
Alone waiting there for me to come back
I'm too afraid to show

If it's coming over you
Like it's coming over me
I'm crashing like a tidal wave
That drags me out to sea
I want to be with you
If you want to be with me
Crashing like a tidal wave
I don't want to be
Stranded
Stranded
Stranded
So baby come back to me [Stranded]
So baby come back to me [Stranded]

I can only take so much
These tears are turning me to rust
I know you're waiting there for me to come back
I'm too afraid to show

If it's coming over you
Like it's coming over me
I'm crashing like a tidal wave
That drags me out to sea
I want to be with you
If you want to be with me
Crashing like a tidal wave
I don't want to be
Stranded
It's coming over you [Stranded]
It's coming over me [Stranded]
It's coming over you [Stranded]

I miss you
I need you
Without you
I'm stranded
I love you
So come back
I'm not afraid to show

Crashing like a tidal wave
Drags me out to sea
I want to be with you
You want to be with me
Crashing like a tidal wave
I don't want to be
Stranded
It's coming over you [Stranded]
It's coming over me [Stranded]
It's coming over you [Stranded]

So baby come back to me [Stranded]
So baby come back to me [Stranded]

Coming over you
Coming over me
So baby come back to me
So baby come back to me

Make me

(Andy Goldmark & Mark Mueller)

You look so confident
The way you work the room
Like you're heaven sent
Everybody checking you
Something about it baby
Keepin' me amused
Hate to admit it but I
Kind of like your attitude

Things that you do and the things that you say
Gotta be for real if you want me to stay
Think that I'll jump if you want me to play
Well, you gotta do better than that

CHORUS

Make me
Give you everything I've got
A reason to let you in my private thoughts
Take me
To a higher place where I've never been
The way that no one else can
Make me

I see the wheels are turning
You've always been the best
You think you're the first
You better second guess
Before we get to that
You gotta go like this
Show me I'm on top of
Your most wanted list

Things that you do and the things that you say
Gotta be for real if you want me to stay
Think that I'll jump if you want me to play
Well, you gotta do better than that

CHORUS

Make me
Give you everything I've got
A reason to let you in my private thoughts
Take me
To a higher place where I've never been
The way that no one else can
Make me

No easy come
No easy go
The way to my heart is through my soul
I'm giving you
The simple fact
Think that I'll jump if you want me to play
Well, you gotta do better than that

CHORUS

Make me
Give you everything I've got
A reason to let you in my private thoughts
Take me
To a higher place where I've never been
The way that no one else can
Make me

Way of the world

(Mark Hammond & Scofield)

Who he is
Who I am how we move
I just sit and watch the frenzy
I can't catch my breath to stop and see
Is this what you meant
Is this happy
What's going on all around me
I just can't work it out exactly
It all comes down so abstractly

CHORUS

It's the way of the world of you and me
It's every wish I ever made or ever thought I might
It's the way of the world of you and me
Baby all I know is I love the way I feel tonight
It's the way of the world
It's the way of the world

What does it mean
All the flowers I've received
It must be raining botany
Spinning and flashing and dashing
And narrowly escaping
In an accent that I'm sure he's faking
But then we just burst out laughing
What zone is this we're passing

CHORUS

It's the way of the world of you and me
It's every wish I ever made or ever thought I might
It's the way of the world of you and me
Baby all I know is I love the way I feel tonight
It's the way of the world
It's the way of the world

I'm thinking to myself
Baby with all you all I know is I go somewhere else
Lost in the mystery
In some other world
There's nowhere else I'd rather be

It's the way of the world of you and me
It's every wish I ever made or ever thought I might
It's the way of the world of you and me
Baby all I know is I love the way I feel tonight

CHORUS

The way of the world of you and me
Baby all I know is I love the way I feel tonight
It's the way of the world of you and me
It's every wish I ever made or ever thought I might
It's the way of the world of you and me
Baby all I know is I love the way I feel tonight
It's the way of the world of you and me

Not this time

(Jennifer Paige, Jensen, Larsson & Kim Bullard)

Started seeing trouble in your eyes
Followed you around just a little while
Didn't want to believe you could do me wrong

Did her lips taste as sweet as mine
Did she fall for all your fancy lines

You run around me with another
Think that you can do better

CHORUS

You said I was everything
[Don't want to see you 'round here no more]
But you'd tell me anything
[I don't wanna see you come back for more]
Did you think I would take you back
[Did you really think that I'd take you back]
Never take you back
Not this time

Now you say you're sorry for what you've done
That I will always be the only one
Well, you can take your sorry's to someone else

You ran around on me with another
Thought that you could do better

CHORUS

[no, no, no, baby, uh, uh, uh]
You said I was everything
[Don't want to see you 'round here no more]
But you'd tell me anything
[I don't wanna see you come back for more]
Did you think I would take you back
[Did you really think that I'd take you back]
Never take you back
Not this time

I covered you in roses
And I fell for your disguise
But it doesn't seem so pretty now

CHORUS

[no, no, no, baby, uh, uh, uh]
You said I was everything
[Don't want to see you 'round here no more]
But you'd tell me anything
[I don't wanna see you come back for more]
Did you think I would take you back
[Did you really think that I'd take you back]
Never take you back
Not this time

Did you really think that I'd take you back

You get through

(Jennifer Paige, Russ De Salvo & Roman)

Thought my pain could not be penetrated
My defenses activated
Like a heart that was laminated
And completely sealed

But you're just like a beam of freedom
Pure white light in faded jeans
I love the way you see me baby
The way you make me feel

CHORUS

You, you get through
Even with my walls in place
Even with my poker face
And all those little girl games I play
You, you get through
And you never let me down
Never disappointed
With the love you've found
You get through

Not in my wildest imagination
Did I have this expectation
Now I'm having the revelation
I am not immune

Cause when you hold me I surrender
I am yours
Yours forever
I love the way you love me baby
The things you do, you do

CHORUS

You, you get through
Even with my walls in place
Even with my poker face
And all those little girl games I play
You, you get through
And you never let me down
Never disappointed
With the love you've found
You get through

From the bottom of the heart of me
I feel this love
Every single little part of me
Is opening up

CHORUS

Feel so far away

(Chance Scoggins)

What have we become
It seems our hearts have come undone
And even when I hold you in my arms
you're out of reach
I would walk a thousand miles to get to you
Ten thousand more to get you back into me

But the more I reach the more you run
[I can't get to you]
The more I reach the more you run

I feel so far
I feel so far away
From where you are
I feel so far away

Silently pretending
We're not alone and nothing's ending
Lost in the familiar
We've forgotten how to dream
I remember a time when you and I
believed in forever
I want that again

But the more I reach the more you run
[I can't get to you]
The more I reach the more you run

I feel so far
I feel so far away
From where you are
I feel so far away

Standing on the edge
Looking for a bridge
Reaching out but I can't get to you
Get to you
Standing on the edge
Looking for a bridge
Do everything I do to get to you
Get to you
I'm standing on the edge
Looking for a bridge
I'm reaching out but I can't get to you
Get to you

I feel so far
I feel so far away
From where you are
I feel so far away

I feel so far
I feel so far away
From where you are
I feel so far away

I'm standing on the edge
Looking for a bridge
I'm reaching out but I can't get to you
Get to you

The edge

(Jennifer Paige, Trina Harmon & Livingston)

A crowded room in the dead of night
Bodies crash in the sound and sight
I see your face break through in a flash of a light
With eyes that seem to read my mind
I feel we've touched in another time
And suddenly my heart is coming alive

CHORUS

And I feel you calling me
All night
Pulling me closer
Wanna give you all of me
Oh I
I think I'm going over
Over the edge

The night unfolds like a lover's arms
But we can't talk, don't know where to start
We breathe as one but we're two worlds apart
So let's not question right or wrong
Wanna move with you 'til the night is gone
And suddenly this is where we belong

CHORUS

And I feel you calling me
All night
Pulling me closer
Wanna give you all of me
Oh I
I think I'm going over
Over the edge

If I'm going over baby come with me
All the way over, baby

CHORUS

And I feel you calling me
All night
Pulling me closer
Wanna give you all of me
Oh I
I think I'm going over
Over the edge

Tell me when

(Jennifer Paige, Christopher Ward & Steve Booker)

I talk to you out loud
Driving south on Kings road
I've got you in my coat here
Written down
I find new ways to want you
But I can't reach you
So I head downtown

It's forever later
You're so far away
As night becomes day
I remember the way you held me
Baby won't you

CHORUS

Tell me when so I keep believing
Tell me again I'm on your mind all the time
Tell me when, don't wanna lose this feeling
Tell me again when you'll be mine
When you'll be mine
Tell me when

Flying standby
On the redeye when you saw me
You left and I heard voices in my head
A happy accident that had to happen
A car crash in my bed

It's forever later
You're so far away
As night becomes day
I remember the way you held me
Baby won't you

CHORUS

Tell me when so I keep believing
Tell me again I'm on your mind all the time
Tell me when, don't wanna lose this feeling
Tell me again when you'll be mine
When you'll be mine
Tell me when

It's forever later
You're so far away
I remember the way you held me, baby

CHORUS

Tell me when so I keep believing
Tell me again I'm on your mind all the time
Tell me when, don't wanna lose this feeling
Tell me again when you'll be mine
When you'll be mine
Tell me when

Stay the night

(Jennifer Paige, Andy Goldmark & Andreas Carlsson)

Don't know what you intended
Am I just part of your game
Boy, you started a fire
I can't identify it
You're only fanning the flame
It's the rule of desire

Don't keep me waiting here for your love
Come and show me what you're made of

CHORUS

Stay the night
And I'll decide
If it's right
Cause I won't wait forever baby
Stay the night
Come inside
Show me why
I should let you
Stay the night

Use your imagination
Don't treat me like the rest
Show me you'll do it better
This kind of situation
Requires only the best
Boy, it's now or never

I'm just waiting here for your love
Come and show me what you're made of

CHORUS

Stay the night
And I'll decide
If it's right
Cause I won't wait forever baby
Stay the night
Come inside
Show me why
I should let you
Stay the night

This could go either way
So don't just stand there at my door
Cause I can't
No, I can't fight this feeling anymore
No more

CHORUS

Vapor

(West & Lloyd)

I can take you down to everywhere I go
Never want to take you down that low
Been starin' out my window
Into negative space
On the pavement from the elevator
Down the cornershop to buy the paper
Had a premonition you would be there too
No way not today
It's just more bad news

CHORUS

I want to be vapor
Want to rise above the year
I want to be steamy
And dry up all my tears
Cause with my head in the clouds
I'd be light upon my heels
I want to be vapor
I want to be vapor
And disappear sometimes

My heart is heavy
I feel I'm sinking in
My sister tells me that I spread myself too thin
Feel like standing in a plaster mold of me
What I have is not contagious
I see a smile on a passing stranger
Think to follow them to see where they go all day
Wanna know how it is they get that way

CHORUS

I want to be vapor
Want to rise above the year
I want to be steamy
And dry up all my tears
Cause with my head in the clouds
I'd be light upon my heels
I want to be vapor
I want to be vapor
And disappear sometimes

I want to be vapor sometimes, oh yeah

I could take you down to everywhere I go
But I never want to take you down that low
Oh no Oh no

CHORUS

I want to be vapor sometimes
I want to disappear

While you were gone

(Jennifer Paige, Harmon & Livingston)

I read you wrong
 You said you'd only be away a while
 But the days turned into weeks
 and the weeks into miles, baby why?
 You could've told me you were tellin' me goodbye
 Could've come clean and let me walk away in style

Funny thing is....
 While I was missin' you
 While I was figurin "what was I gonna do?"

CHORUS

I got wise
 I got hip
 I caught on to your tricks
 I got over it real quick yeah baby
 while you were gone
 Now I'm cool
 Can't you tell?
 Feel so good about myself
 Funny thing happened to me baby
 While you were gone

You look surprised
 Like no one ever left you and survived
 But leavin' me alone
 Has kinda opened my eyes
 Baby you, you gave me the time
 To find somebody new
 and I found strength inside of me I never knew

Funny thing is
 While he was holding me
 While he was showing me how it's supposed to be

CHORUS

I got wise
 I got hip
 I caught on to your tricks
 I got over it real quick yeah baby
 While you were gone
 Now I'm cool
 Can't you tell?
 Feel so good about myself
 Funny thing happened to me baby
 While you were gone

Didn't break
 Didn't cry
 I just tell my head I'm fine
 I learned how to say goodbye
 While you were gone
 I had time on my hands
 Boy what don't you understand?
 Funny thing happened to me baby
 While you were gone

oh... oh...
 while you were gone I learned how to get along
 while he was gone I got strong

While he was holdin' me
 While he was showin' me
 how it's supposed to be, oh oh whoa

Didn't break
 Didn't cry
 I just tell my head I'm fine
 I learned how to say goodbye
 While you were gone
 I had time on my hands
 Boy what don't you understand?
 Funny thing happened to me baby
 While you were gone

CHORUS

I got wise
 I got hip
 I caught on to your tricks
 I got over it real quick yeah baby
 While you were gone
 Now I'm cool
 Can't you tell?
 Feel so good about myself
 Funny thing happened to me baby
 While you were gone
